GENERAL DESCRIPTION:

- 3 Core Yellow, PVC insulated cable extension leads are suitable for supplying 110v electric to power tools, site electrics, site lighting, festoon lighting and a whole host of other applications.
- BS 6500 and BS EN 50363-3 Compliant.
- Retains flexibility at sub-zero temperatures to -40°C. Designed for exterior use.

TECHNICAL SPECIFICATION:

• Conductor Size :	4.0mm
• Outer Sheath Colour :	Yellow
• Shape :	Circular
• Inner Core Colours :	Brown, Blue and Green/Yellow
• Voltage Rating :	300/500 Volts
• Main Application :	Supply 110v Power to tools and lighting on site
• Nominal Area Of Conductor mm :	4.0mm
• Sheath Thickness mm :	1.3mm
• Mean Overall Diameter (upper limit) mm :	13.0mm
• Amp	32amp 110v
